RESPONSE TO RESTRICTION REQUIREMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the outstanding Office Action dated August 1, 2006, Applicants present the following remarks for consideration.

REMARKS

In the outstanding Office Action, the Examiner required restriction of claims 1-39 of the above-referenced application to one of the following two groups of claims: claims 1-24 (Group I) and claims 25-39 (Group II).

The Examiner states that the claims in each group are distinct because "the apparatus as claimed [in claim 1] can be used to practice another materially different method."

Applicants respectfully traverse the restriction requirement for at least the following reasons.

The apparatus of claim 1 (Group I) recites at least one processor operative to: (i) maintain an electronic contract that contains information pertaining to descriptions of one or more business transactions in IT terms, financial implications of one or more business transaction service levels, and reporting to be performed in one or more financial terms; and (ii) measuring the operation of the IT system in terms of one or more business metrics based on the electronic contract.
